

# Chambersburg Fire Department Training Announcement

## **Flawed Situational Awareness:** **The Stealth Killer of First Responders**

Description:	<p>Most responders may know, intuitively, that strong situational awareness is an important aspect of safety. However, many do not understand what situational awareness is, how it is developed and how it can erode while working in high risk, high consequence environments. Compounding the program is the fact that situational awareness – and the barriers that flaw awareness – are consistently identified as contributing factors in near-miss and casualty reports. This program provides attendees with a good understanding of what situational awareness is and how it is developed.</p>
